Inspiration

Things that inspired me on my artistic journey,

-Summer: Summer time and the sun inspired me to use the colors in my art. This is also my overall personality, warm and friendly.

-Shape: Life is a circle. When I wake I feel like a circle and through the day as the day goes on I feel like the circle gets stretched out and flows in one direction or another.

-Font: I'm a minimalistic type, with the exception of handwritten fonts. For this project I combined my intails with the swirls and also a handwritten version I made.
